

Math 4CST – Periodic Function Practice

Determine

a) The period

b) $f(4)$

c) $f(10)$

d) $f(10 + \text{Period})$

e) Describe when $f(x)$ will be equal to 1.

Determine

a) The period

b) $f(0.25)$

c) $f(4.75)$

d) $f(4.75 - \text{Period})$

e) Describe when $f(x)$ will be equal to 3.

Determine

a) The period

b) $f(4)$

c) $f(0)$

d) $f(0 + 8 \text{ times the Period})$

e) Describe when $f(x)$ will be equal to -3 .

Determine

a) The period

b) The exact value of $f(2.8)$

c) $f(0)$

d) $f(2.8 - 6 \text{ times the Period})$

e) Describe when $f(x)$ will be equal to -7.
